

BILL TO RESHAPE ARMY PREPARED

Washington, D. C. Aug. 4.—An order abolishing the six departments of the army and establishing nine corps areas as provided in the army reorganization act has been prepared in the war department and is awaiting the approval of secretary Baker. The departments which would be abolished are the northeastern, southern, central, western, and southeastern. The new corps areas would be: northeastern, central, southern, western, and southeastern. The geographical boundaries of the nine corps areas are yet unannounced. Each area would be under a major general as are the present army departments of the country and four divisions would be located in each. Two of

LOOK OUT FOR HEART TROUBLE

The Heart Pumps the Blood and Must Have Plenty of Nerve-Force.

"I wish to thank you because I was sick for one year with heart trouble. I could hardly breathe, but now I feel like a new man. My heart has left me. Your medicine is wonderful. It is all you claim for it. You can see this letter," says R. A. Vandy, Study Butte, Texas.

The body is a machine. The nervous system is the dynamo. Nerve-force drives the heart, stomach, kidneys, liver and bowels, all the organs. Free circulation of blood, as essential as air, good digestion and regular action of the liver, kidneys and bowels all help to follow this treatment.

Don't try stimulants when your heart weakens and your blood becomes sluggish. Feed some Sugar-Tone into your system. It contains just the elements to build up nerve-force and revitalize the blood. Healthy heart action, free circulation of blood, as essential as air, good digestion and regular action of the liver, kidneys and bowels all help to follow this treatment.

Druggists guarantee Sugar-Tone. Buy a bottle. A bottle will last you a month. Use it 10 days and if you don't feel better and look better, take the remainder of the package back to the druggist and get your money back. Get Sugar-Tone at Cordell Drug Company and other good drug stores. Try It—A-S-E.

Where Clarity Is Vital Consult Your Attorney

FAULTY WILLS have formed the basis of much litigation. They have usually been of the "home-made" variety drawn without the aid of a lawyer who is versed in such matters.

If your Will has not been drawn, consult your attorney, and make it contest proof. If it has been drawn and you are doubtful about its clearness, better see your attorney about it.

You will not be present to explain the provisions of your Will when they become operative. It is vitally necessary that these provisions be clear so that your loved ones may be provided for just as you direct.

You will find our new booklet, "Questions and Answers About Wills" helpful and informative. Our Trust Officer will gladly send you a copy.

Former Wife Sues Maj. Dorcy For A Big Sum

Maj. Ben H. Dorcy, of the Seventh cavalry stationed at Fort Bliss, is named defendant in a suit on contract, growing out of a divorce in St. Louis which was filed by Linda R. Dorcy in the 68th district court Thursday afternoon. According to attorneys for Mrs. Dorcy, she claims that approximately \$1000 is due her from an agreement of Dorcy to pay her 45 percent of his army salary.

Mrs. Dorcy's attorneys said Friday that a divorce was granted in St. Louis and that at that time Dorcy was ordered and agreed to pay 45 percent of his salary to her. The petition charges that he has failed to keep the contract and that back payments have accrued which amount to \$1000.

Maj. Dorcy is now at Elephant Butte dam.

These would be reserve organizations which would exist largely on paper and would be called only in case of a national emergency. One division would be of regular troops and the fourth of national guard.

Neither the regular nor national guard division would be at full strength, but under plans now being prepared they could be recruited to that strength when the necessity arose. A full quota of officers drawn from the officers' reserve corps would be available for these divisions at all times.

ARMY WILL MOVE OFFICES AUG. 15 INSTEAD OF AUG. 11

Offices of El Paso district military headquarters will not be moved from the El Paso building until August 15 instead of August 11. The additional four days are necessary to accomplish the task, according to Lieut. S. W. Koster, acting adjutant of the district.

The present district officers, named as staff to Brig. Gen. Robert L. Howard, will take offices at post headquarters at Fort Bliss, now occupied as headquarters for the 10th cavalry. The latter officers will be transferred to other quarters.

Subsidiary controlled from Fort Bliss will be Camp Chisag, Tucson, El Paso, Fort Hancock, Yajeta and Camp Fort Bliss.

JUDGE: 'TRY IT OVER AGAIN'

"Judge, I've driven a taxicab here for nine years and never have been arrested for a traffic violation," declared L. Nieto, a chauffeur, in police court Thursday.

"You are phenomenal," Judge Charles Pollock replied. "You're a wonder. Your case is dismissed, but you'd better try to nine years more before returning to this place again."

WARSAW DEFENSE LINE BROKEN BY BOLSHEVIKI

Continued from page 1.

government to the world Russian regime during the world war.

London, Eng., Aug. 4.—A semi-official message from Warsaw filed tonight says the Poles have evacuated Ostrow, between the Bag and the Narva rivers, 15 miles southeast of Lomza, and about 45 miles northeast of Warsaw.

While the actual military situation in Poland is not much clearer than it was yesterday, it is admitted to be critical.

Reports yesterday stated the soviet armies had reached points 30 miles distant from the Polish frontier. Later advice indicates they are twice that distance away, and that the Polish cavalry is far ahead of the enemy.

A Warsaw dispatch to the Daily Mail states the Polish counter-offensive against the southern front has been successful, and that the bolsheviks have been hurled back 40 miles.

Reports that the Russian government has already ordered the fleet to resume the blockade of Russia, which was partially raised last November, receive great emphasis in some newspapers, but no official sanction is claimed for the statement, and such inquiries as were possible early today morning tended to discount the rumor. It is asserted that, notwithstanding the fact that the cabinet has not considered the reply of the soviet government relative to an armistice with Poland, it has been determined to send the Kamenoff-Krasin trade delegation back to Russia.

The text of the soviet reply is known to have reached London, but as yet it has not been made public by the foreign office. Moderate newspaper opinion reflects the impression that the tone of the reply is reasonable and cannot be objected to in official quarters. It is said the situation will be favorably affected by the communication.

Suspicion that Germany is acting in collusion with the bolsheviks exists and it is not lessened by reports of the address made by Dr. Walter Simons, German foreign minister, before the Reichstag yesterday during which he declared Germany would seek to prevent the entrance from sending troops to Poland against Germany.

It is suggested the entrance could send troops by air.

The controversy of Germany having to fight to resist a possible attempt by the entrance to send troops through Germany to help Poland was mentioned in the Reichstag today by Dr. Walter Simons, the foreign secretary, says a wireless message from Berlin.

Declaring he was not aware whether the entrance actually intended to march through Germany, he said it would obviously be to their interest to do so and the German government must take measures accordingly.

Dr. Simons referred to the report that preparations were in progress in occupied territories to transfer troops to the east.

"If this is true," he declared, "it constitutes a violation of German neutrality for the territory, although occupied, is German and the agreement provides that no district belonging to a belligerent power may be used for military operations."

The Bavarian traffic council has decided to leave a postmaster to inspect postal and telegraph employees, relying on them to prevent the conveyance of entrance troops or arms across the German frontier. The council has also decided to monitor by all means, paralyzing, if necessary, the whole of the Bavarian transport system, says a wireless dispatch from Berlin.

REDS' REPLY CONCEDES POLAND'S INDEPENDENCE

Continued from page 1.

blockade in consequence of the invasion of ethnographical Poland by the troops of the soviet government."

CABINET CHAIRMAN RYKOFF, Washington, D. C. Aug. 4.—Secretary Calkins and Undersecretary Davis, of the state department, had a long conference today with the Polish ambassador, who said the Polish situation was discussed.

American Express Cutler.

Warsaw, Poland, Aug. 4.—Owing to the desperate situation on the front against the Russian army, the 10th cavalry, the air force composed for the most part of Americans attached to the Polish army, is being transferred from the southern front. The squadron will aid in the defense of the Polish capital.

The American consulate in Warsaw will be closed Friday and Consul Rankin is making preparations to depart Friday night. Most of the records already have been shipped away.

The American legation here also is prepared to close within a very few days. The legation employees have shipped their baggage to Camp Graphe, the emergency headquarters of the American typhus expedition.

The evacuation of the Krasnoye squadron will be begun in two or three days. Meanwhile bullet-battered tanks, which saw service in the great war rumbled through the streets of Warsaw today on the way to engage the Russians. The arrival also began of 15 military cars, which the French used against the Germans on the western front. Several artillery detachments with these guns as their weapons left for the nearest front where fighting with the Russians was in progress. These batteries were expected to begin action on Friday.

Wangul Defends Reds.

Constantinople, Turkey, Aug. 4.—Armies of the Russian soviet government, which have been engaged in fighting Gen. Wangul's forces in southern Russia have been completely defeated, according to a telegram from Gen. Wangul, which has been received here. The anti-bolshevik have captured 4000 prisoners, 22 cannons, 100 machine guns, four trains, five armored cars, and a great quantity of war material, it is said. Parole of the bolsheviks is declared, continues.

A person usually begins to lose height at the age of 50, and at the age of 55 it is estimated that the average he has lost about one and one-half inches.

Creditors Of Villa Flock To Torreon

When Francisco Villa, at the head of his column of caballeros, rides into Torreon to complete negotiations with the Mexican de facto government, he will find waiting a horde of creditors, Americans and others, who are hounded as a result of the long "services rendered."

And all are confident of a settlement in full of their claims against Villa. For although one of the most notorious bandits on record, who has never hesitated to strip those he considered his enemies of their possessions, there is said to be no blotch on his credit in business dealings. And through whom, who has been benefited are confident their claims will be included when Villa presents a statement to the Mexican government.

Consequently, all his creditors are sure they will get what is due them when their bills are presented, and those with claims will endeavor to be present when Villa hands in his statement for a final settlement with the de facto government.

While Villa is credited with being willing to shoot any man who ventures to antagonize him, his loyalty and generosity to his friends is admitted, and it is not thought likely he will allow any who have rendered him services in the past to go unpaid. And through whom, who has been benefited are confident their claims will be included when Villa presents a statement to the Mexican government.

Among the El Pasoans who have lent for Torreon in order to be there when Villa arrives is Teodoro Kyalacopula, a wealthy Greek, to whom, according to an intimate friend, Villa has owed \$200,000 for "services rendered" four years ago.

CHIHUAHUA ELECTION RETURNS MAY BE ANNOUNCED SATURDAY

All the candidates from the Bravos district in Chihuahua, who were candidates at the election held last Monday, met in Juarez Thursday, where an initial count of the ballots from all the precincts was begun. No announcement as to the result of the count will be made until Saturday or Sunday.

According to Ignacio Romero, president of the ballot officials.

Although no official announcement has been made as to the votes polled in the various precincts, it is believed that the "green" ticket is far to the lead. This is the representative of Luis L. Leon and Tova Y. Perez, who are running respectively for deputy and secretary.

The precincts from which the ballots come include the towns of Guadalupe, Villa Ahumada, Guadalupe, Zaragoza, San Ignacio and Porvenir.

JUAREZ MERCHANTS OBJECT TO \$10 PASPORT CHARGE

Continued from page 1.

the United States to find employment, but the position of Americans entering Mexico is vastly different.

The labor situation in many sections of the southern American states has reached a desperate condition, and the American farmer needs our laborers. It does not seem just that the United States should be made to pay a visa charge of \$10 and a head tax of \$5 to the detriment of the laborer for the privilege of helping out the labor problem of the United States."

FLOOD SWEEPS UPPER VALLEY; DAMAGE IS GREAT

Continued from page 1.

day morning, standing in all the low places on the mountain.

The rush of water from the mountains cut across fifty feet and a hundred feet across the valley, and the highway and the railroad, and pouring out over the highway and railroad tracks, tore their way into the river or across fields.

Many alfalfa fields are under water. At the Abraham ranch, north of the El Paso County line, the entire north field is under water.

Telephone Poles Cut Off.

The force of the water, carrying rocks and boulders with it as it rushed down from the mountains, cut telephone poles down as if they had been toothpicks, along the country road about two miles north of Courchesne. In some places, the force of the water was so great that it washed the poles out of the ground.

While the great damage was done between Montoya and Canutillo, there was damage all the way up the valley.

The road leading to the west side from Anthony was from two to 15 feet deep in water. The water was so high that the alfalfa fields all over the valley were standing in water. As a good deal of hay was on the ground, it is all ruined. The loss in money will amount to thousands of dollars in alfalfa alone.

The rain will also cause a big loss to the cantaloupe growers of the upper valley, as rain causes the melons to crack, and the fields are now receiving will interfere with the gathering of the crop, now in progress. Small the water reaches sufficiently to permit operations to be resumed.

Cavalry Is Storm-Bound.

A squadron of the 10th cavalry, bound for Elephant Butte dam from Fort Bliss, Friday morning and was forced to detour the west side road, with the result that the heavy trucks cut the wet macadam and made it almost impossible for other traffic.

"TEE HEE HAW HELPS MY BABY MORE THAN ANY OTHER ELSE," SHE SAYS

There is nothing that so touches the heartstrings of a mother as the cries of her baby during the day and night at teething time.

There is a remedy which gives grateful relief from pains of little children when they are cutting teeth. That remedy is TEE HEE HAW.

Mrs. Hattie Gilder, of Baxley, Ga., says: "I am glad to say that my baby has been helped by TEE HEE HAW. I had not given him Teething when he was teething he would have suffered. Teething is a time when the ingredients are printed on every package."

If your druggist does not sell TEE HEE HAW, send the name to the Moffett Laboratories, Columbus, Georgia, and a package will be mailed you, together with a beautiful little booklet, entitled, "Baby,"—A-S-E.

EL PASO HERALD Globe Store News

—beautiful silk sport skirts

—We have just received a shipment of silk sport skirts showing the new accordion pleated models in crepes, jerseys and kumsi kumsa. The colors run the gamut of the rainbow and the showing makes a most fascinating array. The designs include stripes, dots and shadow checks. Very specially priced at
